

Washing & Care Instructions

Ceramic Collection

Due to our ceramic homewares collection being hand designed and hand painted, a little extra care needs to be taken when washing and utilising each piece.

To wash and care for your ceramic homewares, please:

- Fill a basin with warm water and a small quantity of mild detergent
- Hand wash with a non-abrasive cloth and ensure that the pieces aren't left to soak
- Dry immediately afterwards with a clean and smooth cloth and then allow to air dry
- To store, avoid stacking inside other homeware pieces as rubbing and pressure can cause damage

Other important points about ceramic homewares care:

- The ceramic designs are permanent, microwave and dishwasher safe and solvent resistant but to ensure the longevity of each design, we recommend following the above steps
- The designs can be used both indoors and outdoors and are fade resistant
- Avoid storing your ceramic pieces in vulnerable positions as they are breakable
